Re: Time Apportionment Application - FY

I write to apply for the time apportionment of equity income incurred from shares conversion.

The income reported on Form IR56B includes the full share unit conversion income of HK\$. Based on apportionment calculation, the income attribution to HK employment is HK\$ by excluding non-Hong Kong employment days.

Attached is the time apportionment calculation for the income accrued to me during my employment in Hong Kong.

Thank you very much for your attention.

Kind Regards,
